**JAKARTA | LANGHAM RESIDENCE | KREOO**

The project signed by Sebastiano Zilio for this apartment, with a panoramic view of the skyline of the Indonesian capital, was inspired by the Rationalist period of the 1930s and 1940s and features Made in Italy furnishings, surfaces, accessories and chandeliers. Among the protagonists of the interior design is Kreoo marble. The Ducale range of flooring - in Persian Grey marble with square brass inlays - stands out among the rooms of the luxurious home, defining decorative surfaces, cladding with the Folium collection in Travertino Titanium, or with a carved finish in a warm shade of Travertino Noce marble, as well as in precious green onyx. All made-to-measure materials and finishes that enhance the know-how of the Decormarmi brand.
